Method(s) used to determine which students receive Emergency Financial Aid Grants and how much they would receive under Section 18004(a)(1) of the CARES Act:

The Dominican House of Studies created an application process that requires students to identify both the amount of funding requested and a detailed rationale for their request; this application process was emailed to each eligible students. Applicable student data (i.e. student status, student identification number, international status, FERPA on file, degree program type, etc.) from our student information system was matched with each student applicant to determine qualified students. Qualified students were rank ordered (highest to lowest) based upon federal unmet need and expected family contributions. Approved students were awarded the amount that they requested up to a limit of \$5,000 for emergency funding.

On July 7, 2020, all currently eligible enrolled Dominican House of Studies Degree Program students were sent the following instructions via email:

****Additional Institution Cares Act grant funding received as of December 31, 2020 has \$54,784 tuition reimbursement distributed to 55 students who paid tuition and did not receive scholarships or discounts.**
